

1. These pictures need to be printed onto card.
2. Colour the pictures.
3. Carefully cut out the circles, and stick them together, back to back. They must be exactly lined up, and the crosses must be upside down.
4. Get a teacher to help you make the holes where the marks are.
5. Thread an elastic band through each hole.
6. Twist both the elastic bands – then release the picture and see what happens!
